

5. The additional statements contained in Exhibit A also impute a crime to Plaintiff Ed Hammitt and clearly imply that Plaintiff Ed Hammitt unlawfully defrauded Georgia Power of goods and services.

6. The actions of the Defendant in causing the publication aforesaid were done maliciously and with the intent to harm and defame the Plaintiffs. The publication was false and known to the Defendant to be false.

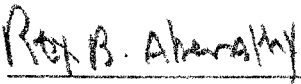

7. Plaintiffs sue the Defendant for the sum of \$100,000.00, together with the costs of this proceeding.

WHEREFORE, Plaintiffs pray that they be awarded a Judgment & Verdict against the Defendant in the sum sued for, together with the costs of this action.

Respectfully submitted,

I knew Jon Dennis was crooked and in with that bunch... what a joke of a legal system we have and what a shame our country has to put up with it...

I can remember when this man was flipping hamburgers, and having affairs with students (all rumor of course) now he walks around town with is arrogant, better than though attitude....like he has forgotten those humble hamburger days... this just proves what many have thought, than he is headed to take over as "king pin" on crooks in the county... watch out BLC, Albert... he might just out do you

I think that soon, there will be more things come out about Mr. Dennis. I have been told that he has actually told clients to lie and to do some illegal things. I can't go into details, don't want to harm the investigations into him. I've read that Ed and Brenda Hammitt are involved in this. Now there's a couple. Some one told me that as there house was being built off of Ridgeview Dr. that there were marijuana plants found on his property, and Mr. Hammit and his wife told the workers not to pull them up, because they were going to sell them to a certain Trion City councilman. But that was thwarted when Mark Schrader and Brian Tucker came and pulled them up. He also had a Ga. Power employee Wire his house, an it was told that he wired the house while his was on the clock with Ga. Power. Materials meant for Ga. Power was used in the house. Matter of fact, when the front porch was being poured, they used "ground rods" for reinforcement instead of rebar. Rebar is a steel that is used to strengthen the concrete.

come on guys everyone in chattooga county knows ben is joke for a lawyer

Dear Redneck -

Actually, Ben is respected down here in Floyd County. I have so many e-mails to one of my personal e-mail accounts, who are stunned at this secret, immediate, move by Dennis. I had no idea so many lawyers down here were reading and watching this website.

I have also already gotten several other stories from VERY respected attorneys from elsewhere in Georgia, NOT BEN, and from up in Chattahoochee, Tennessee, all with similar stories, so, LET the GAMES BEGIN. This will carry us through in to the new year. Now that other attorneys keep seeing the same names of opposing counsel/judges pop up in decisions which made them scratch their heads and go, "Hmmm", they are beginning to speak out. The names John Dennis, Arch Farrar, Albert Palmour, Carlton Vines, Jerry Westbrook, Kristina Cook Connelly, Bobby Lee Cook - over and over and over in really bad law, bad decisions from the bench, illegal and questionable practices.
